W. J. BRYAN.

The Next President of the United States.

THERE would never have been any Trust magnates if Republican laws had not fostered them. Therefore change the laws instead of standing pat as the Republicans declare is their intention. The issue is so plain that "way faring man though a fool cannot err therein."

WHEN you come to think of how much it costs to live in these piping times of tariff protected trusts, there should be no wonder that ordinary Republicans who are not favored pap-sucking government officials should be "rather slow" at contributing to the campaign fund that is to be used to elect another stand-pat Congress.

ACCORDING to the statisticians the Democrats are certain to win in 37 Congressional districts that are now represented by Republicans and have more than an even chance of capturing the 20 other districts necessary for a majority. If those independent and Republican voters, who want the trust fostering tariff revised, vote as they talk, the stand-patters will hardly have a leg to stand on.

WHEAT is ten cents a bushel lower in price than last year, although it is still protected by the tariff rate of 25 cents a bushel. The price of all the farmers are buying is however at the top notch and in fact the price of all trust products protected by the tariff, is higher this year than last. Puzzle why do some farmers support the Republican tariff trust policy that plunders them.

A TELEGRAM to a daily paper says very happily that the Republican party of Hocking County will hold a mass convention the first Saturday in September to nominate candidates for county offices. That William Sweazy and Hi Brown have withdrawn their candidacy for County Commissioner and left the field open for Robert Steward. The facts of the case are that the mass (?) convention will be a bossed John White slate, convention, and that the boss would not permit the usual vote primary this year, and that he simply told Sweazy and Hi Brown to get out of the race for the mass (?) convention was going to nominate Bob Steward. The rank and file of the Republican party in Hocking have no more to do with how things shall be done than the worms of the earth. Simon says "Thumbs up," and thumbs are up.

THE FARMER who votes the Republican ticket is scratching his head and thinking seriously that something is wrong with the protective tariff. He finds the price of wheat in the Chicago market has fallen 12 cents a bushel in less than six weeks, he also finds the price of cotton, corn and oats falling and that all he buys still continues at top prices. He has been told by the Republican leaders and the Republican newspapers that protectionism is the salvation of the farmer, because it increases the home market for his products and keeps up prices and therefore produces prosperity for the farmer as well as the protected trusts. As long as the wheat crop was only a moderately good one in the United States, with short crops abroad, protectionism seemed to work out as the standpatters said it would. But now comes a bumper crop of wheat weighing over 60 pounds to the bushel and good prospects for crops abroad and down comes the price to the export basis—that is the price the Liverpool market, where all countries compete, is willing to pay—and the beautiful theory of protectionism is found lacking. The farmer finds the tariff on wheat of 25 cents a bushel is a delusion and a snare, for of course no wheat is imported when we raise more than can be consumed here and have to hunt a foreign market for the surplus. It will be rather awkward for Speaker Cannon, and the other Republican speakers, in the campaign, to elect a Congress, to explain to the farmers how the tariff protects them when they have to sell in the cheapest market and buy in the dearest. There should be no such trouble in explaining why all the farmer buys has increased on the average 48 per cent because the Republican speakers can point with pride to the prosperity of the trusts and combine who are protected by the tariff. It is evident that these comparatively few protected interests are of more consequence to the Republican managers, who declare they will stand pat on the tariff, than the great agricultural interests that are the chief basis of all the wealth of the United States.

DEMOCRATIC PLATFORM.

We demand that the laws shall be amended that the revenue necessary for the expenses of the state shall be raised without calling upon the counties for a levy, and thereby secure for each county home rule in taxation; i. e., each county raise only what it needs for its own expenses and its citizens authorize.

We declare that the present laws for assessing the property of railroads and other public service corporations should be so changed as to compel the assessment of these properties at not less than their salable value as going concerns, and to prevent their evasion of just taxation.

We demand that the legislature shall enact such laws as will enable a tax to be levied on all franchise privileges as on other property which now, although of great value, pay nothing towards the burdens of government.

We believe in free and unqualified home rule, free from state interference. Each city, town and village should be allowed to decide for itself all matters of local policy, especially as between public or private ownership of all public utilities, including street railways, as well as water-works and lighting systems, and that provision should be made for submitting such questions to the people upon request from a reasonable number of voters and at such elections the vote of a majority shall decide. Such public ownership should be safeguarded by the merit system of appointment and tenure of office, so as to prevent the building up of political machines and the perpetuation of boss rule.

We are in favor of the retention, maintenance and improvement of the canal system of the state.

We favor the rigid inspection and supervision of state and private banks and we advocate such amendment of the constitution and enactment of statutes as will safeguard depositors.

We favor legislation which will make unlawful the giving to or accepting by public officials of steam or street railroad passes.

We favor the initiative and referendum and such legislation and constitutional amendments as will make it effective as to state and local affairs, no franchise or renewal thereof should be granted by any county, city or village without first submitting the same to a vote of the people.

In order to secure purity in elections, we favor the repeal of all special limitations as to time within which criminal prosecutions may be begun for bribery in elections.

The incoming state central committee is directed to require that delegates to the state convention be selected by primaries or delegate conventions to be selected by primaries, such selection to be made by precinct primaries. In the event that any county committee shall violate this party law, the state central committee shall issue a call in accordance with the above regulations, and delegations elected pursuant to the action of the state central committee shall be deemed the regular delegation.

We call to the attention of the people of Ohio the fact that the Democratic victory of last fall resulted in the enactment of a number of laws in the interests of the people chief among which are the following:

The enactment of the two cent railroad fare law, so often vainly demanded of Republican legislatures; the enactment of a state and county salary law replacing the vicious fee system; the creation of a state railroad commission for the protection of shippers; the repeal of the Dana law and of the inheritance tax law; the creation of the Drake investigation committee for Hamilton county.

This committee forced the return of a quarter of a million dollars, stolen from the taxpayers by corrupt officials, before it was stopped by court injunction. We deprecate the delay of the supreme court in withholding its decision upon the legality of this important commission.

This convention adds its testimony of appreciation of the life and character of the late Governor John M. Pattison to that already offered by a grief-stricken state. We would urge that the simplest yet sincerest tribute to be paid his memory is the announcement of our steadfast adherence to the policies he advocated.

The Democratic party cannot recede one step from the advanced moral ground upon which Governor Pattison placed it. Until that era of respect for law, its observance by our citizens and its enforcement by our public servants comes, the spirit of John M. Pattison must dominate the Democracy of Ohio. We pledge ourselves to continue the battle he began until a lasting victory be won. The chief tenet of the late Governor Pattison's political creed was opposition to bosses and grafters. His election was accepted as notice that these exploiters should be permanently retired.

It is with feelings of pride that the half million Democrats of Ohio note the preparations making to receive the most distinguished private citizen of America upon his return from a tour of foreign lands. His intellectual endowments, his purity of morals, his high ideals have arrested the attention and compel the admiration of the peoples of all climes. He returns to the United States splendidly equipped to grapple with the great problems of state. The Ohio Democracy renews its allegiance to his brilliant and matchless leadership. No other name appeals to us for presidential preference. We cordially endorse our great commoner, William Jennings Bryan, for the Democratic nomination for the presidency in 1908 and impatiently await the summons to battle under his banner.

The Fair.

The Hocking County Fair is on, with a good attendance. Today opened the real fair, all of yesterday having been spent in preparing the entries and exhibits. Present prospects are for the largest and best fair ever held in the county.

The stables are well-filled with a fine selection of animals. The horse show this morning brought out some of the best. The races, this afternoon and later, are looked forward to as a great attraction.

The displays in the fine art building are exceptionally fine, comprising in that department almost every variety of fancy-work—burnt-wood, pictures etc. The lower floor of the building is occupied by small fruits, vegetables and other farm products—a great and crowded display.

The poultry, sheep, and cattle departments are well represented. All available space for sheep was taken up yesterday, and more exhibits in some lines are coming in than were looked for. There will be an unusually large exhibit of Shetland ponies.

The Flagdale Band is at the Fair today. Tomorrow music will be furnished by the famous Boy's Industrial School Cadet Band, of twenty four pieces. Balloon ascensions tomorrow and Saturday are among the numerous attractions.

Every effort possible has been made by the management for the comfort and convenience of patrons. A station of the Logan Home Telephone Company is established in the upper story of the Art Building. The fair promises to be a
